

How to Improve Employee Engagement

Gallup reports that 87% of employees around the world are not engaged in their work. Almost one in four employees are actively disengaged, working against the mission of the organization. Yet, nearly all people want to be engaged in work that matters. The difference between those who will flourish and those who languish in the workplace is mindset.

Client Spotlight

Determined to cultivate an entrepreneurial mindset in the youth of Northwestern Pennsylvania, an Ice House Facilitator Training was conducted in Erie to prepare teachers for district-wide Ice House implementations to 850 seventh grade students across the community. Read the press release [here](#).

"The training not only changed my mindset, but gave me practical applications to teach others to do the same," stated Ice House Facilitator Ryan Thompson.
